

# BOSCHERT GIZELIS USA

## ELECTROCUT®

ElectroCut revolutionizes shears. The new ElectroCut line offers the world's first servo electric shear with a 1/4" mild steel capacity. The ElectroCut uses 50% less energy than hydraulic models and has eliminated all hydraulic fluids – cutting out costs associated with leaks, maintenance and disposal. Its award-winning design and added features separate this shear from the competition. Boschert-Gizelis brings more than 50 years of manufacturing experience to its innovative line of electric machines – featuring this first-to-market ElectroCut shear series along with its powerful new ElectroBend electric press brakes.

- ▶ Intuitive touchscreen controller
- ▶ Up to 40 full length cuts per minute
- ▶ Multi-function rear sheet support
- ▶ Return to Front (RTF) shearing
- ▶ Narrow Strip Cutting (NSC) eliminates twisted strips
- ▶ Automatic Thickness Measurement (ATM)
- ▶ Quieter than hydraulic
- ▶ Industry 4.0-ready
- ▶ Compare our Costs!
