

MACHINES WITH CAPABILITY

SERVICE WITH EXPERTISE

*Boschert USA and
Stierli combine capacity
with care*

Boschert USA's installation of a Stierli-Bieger 2200 SE CNC horizontal ram bender in Dakota Creek's Anacortes, Washington shipyard is a game-changer – adding unprecedented capability to its fabrication processes. Complementing the quality of the Stierli bender, Boschert USA's applications engineers, trainers, technicians and service team deliver added value managing production strategy, installation, orientation, training and long-term service.
